Date: ____/_____/_____
Time: ___:___h

Dear parents,
We would like to find out how many people speak to your child in a typical week of her or his life. It would help us a lot, if you could answer the questions below. Just think of a typical week for your child, for example the last week (unless there were unusual events such as holidays or your child was sick).

First, some information about you, so we have an idea about your voice:

Parent 1. Age: ____ Gender: ____ Level of education (highest degree): _____

(If applicable) Parent 2: Age: ____ Gender: ____ Level of education: _____

Does your child attend daycare? YES NO
Does your child have a nanny or babysitter? YES NO

If yes: how many days in a typical week does your child attend daycare? _____ days

Please fill in how many adults _____ and children _____ are there with your child during a typical day in daycare. Please try to estimate the age range of the adults and children:

adults: ____- ____ years children: ____ - ____ months

Does any of the adults speak English with an accent, possibly because they learned English as a second language? YES NO

If yes, which is (/are) the native language(s)? _____

Does your child have any brothers and/or sisters? YES NO

If yes: _____ sisters, _____ brothers

Aged between ____ and ____ years

Do you regularly go on visits or receive visitors that also speak to your child?
YES NO

If yes, on how many days in a typical week do visits occur? (Also count bi-weekly visits.) _____
How many people are present on average during such visits (in addition to people already mentioned above):

_____ adults, _____ children

What is the age range of the adults? ____- ____ years

Among the adults that see your child regularly outside daycare, does any of them speak English as a second language? YES NO

If yes, which is (/are) the native language(s)? _____

If you wish to make remarks or share observations about your child and her or his daily life, please share them below or on the back of this sheet.

Thank you very much for your help!
