

### **Steering Group Description:**

ORCID Steering Groups provide input and guidance to the Executive Director overall strategy and priority setting. At the discretion of the Executive Director, key recommendations will be brought before the ORCID Board for review and vote. Steering Group membership is by appointment by the Executive Director after consultation with the ORCID Executive Committee, and must include at least one Board member.

### **Communications Steering Group**

The Communications Steering Group (CSG) (formerly the Outreach Steering Group) was responsible for fostering discussion and collaboration among the ORCID community. The CSG helped to build relationships with stakeholders, created outreach messaging, content, and materials, and oversaw bi-annual Outreach meetings.
