

Student's Personality Questionnaire

Dear Teachers,

This is a Personality Questionnaire for children. This result will help us understand each student's personality better.

There will be questions that you're not sure how to answer for the student. This is expected and completely normal. For these questions, you should choose "Do not know" as your answer. There are no right or wrong answers.

Thank you!

*** Required**

1. **Teacher's name (First Last) ***

2. **School name ***

3. **Student's name ***

4. **Compared with other kids of a similar age, does the child ***
