Pfeifer, L.S., Soreghan, G.S., Pochat, S., and Van Den Driessche, J., 2020, Loess in eastern equatorial Pangea archives a dusty atmosphere and possible upland glaciation: GSA Bulletin, <https://doi.org/10.1130/B35590.1>.

Supplemental Material

APPENDIX 1. ADDITIONAL MICROPROBE DATA. This includes (1) Quartz grain sizes in basement source samples that were too large for 2D BSE quartz grain size analysis and (2) EDS spectra and compositional table for the illite-rich matrix of the Salagou Formation.

APPENDIX 2. SAMPLE LOCATIONS.

Basement (source) lithologies with quartz too large for BSE image analysis

Salagou Formation matrix EDS spectrum
