# Securely store all your research on Figshare

while making it discoverable and citable

Showcase your papers, supplementary materials, and data in a single online collection with a citable DOI or handle

Measure the impact and reuse of your research through citation trackers and views, downloads and Altmetric data

Store and share your papers, spreadsheet data, images, media, code, posters, reproducibility documentation, readme files, and more...

Figshare accepts any file type and previews most in the browser

Turn over for more information on how your research is secure, discoverable, and citable on Figshare.

For more information about storing your research so it's secure, discoverable, and citable, contact your institution's Figshare administrator.
