

1687 ○

Isaac Newton's

Law of universal gravitation

Every particle attracts every other particle in the universe with a force

1905 ○

Albert Einstein's

Special theory of relativity

Disagreed, saying gravity was not a force but rather a distortion in the shape of space and time.

2020 ○

What is Gravity?

by Wesley Schouw
chacli.com

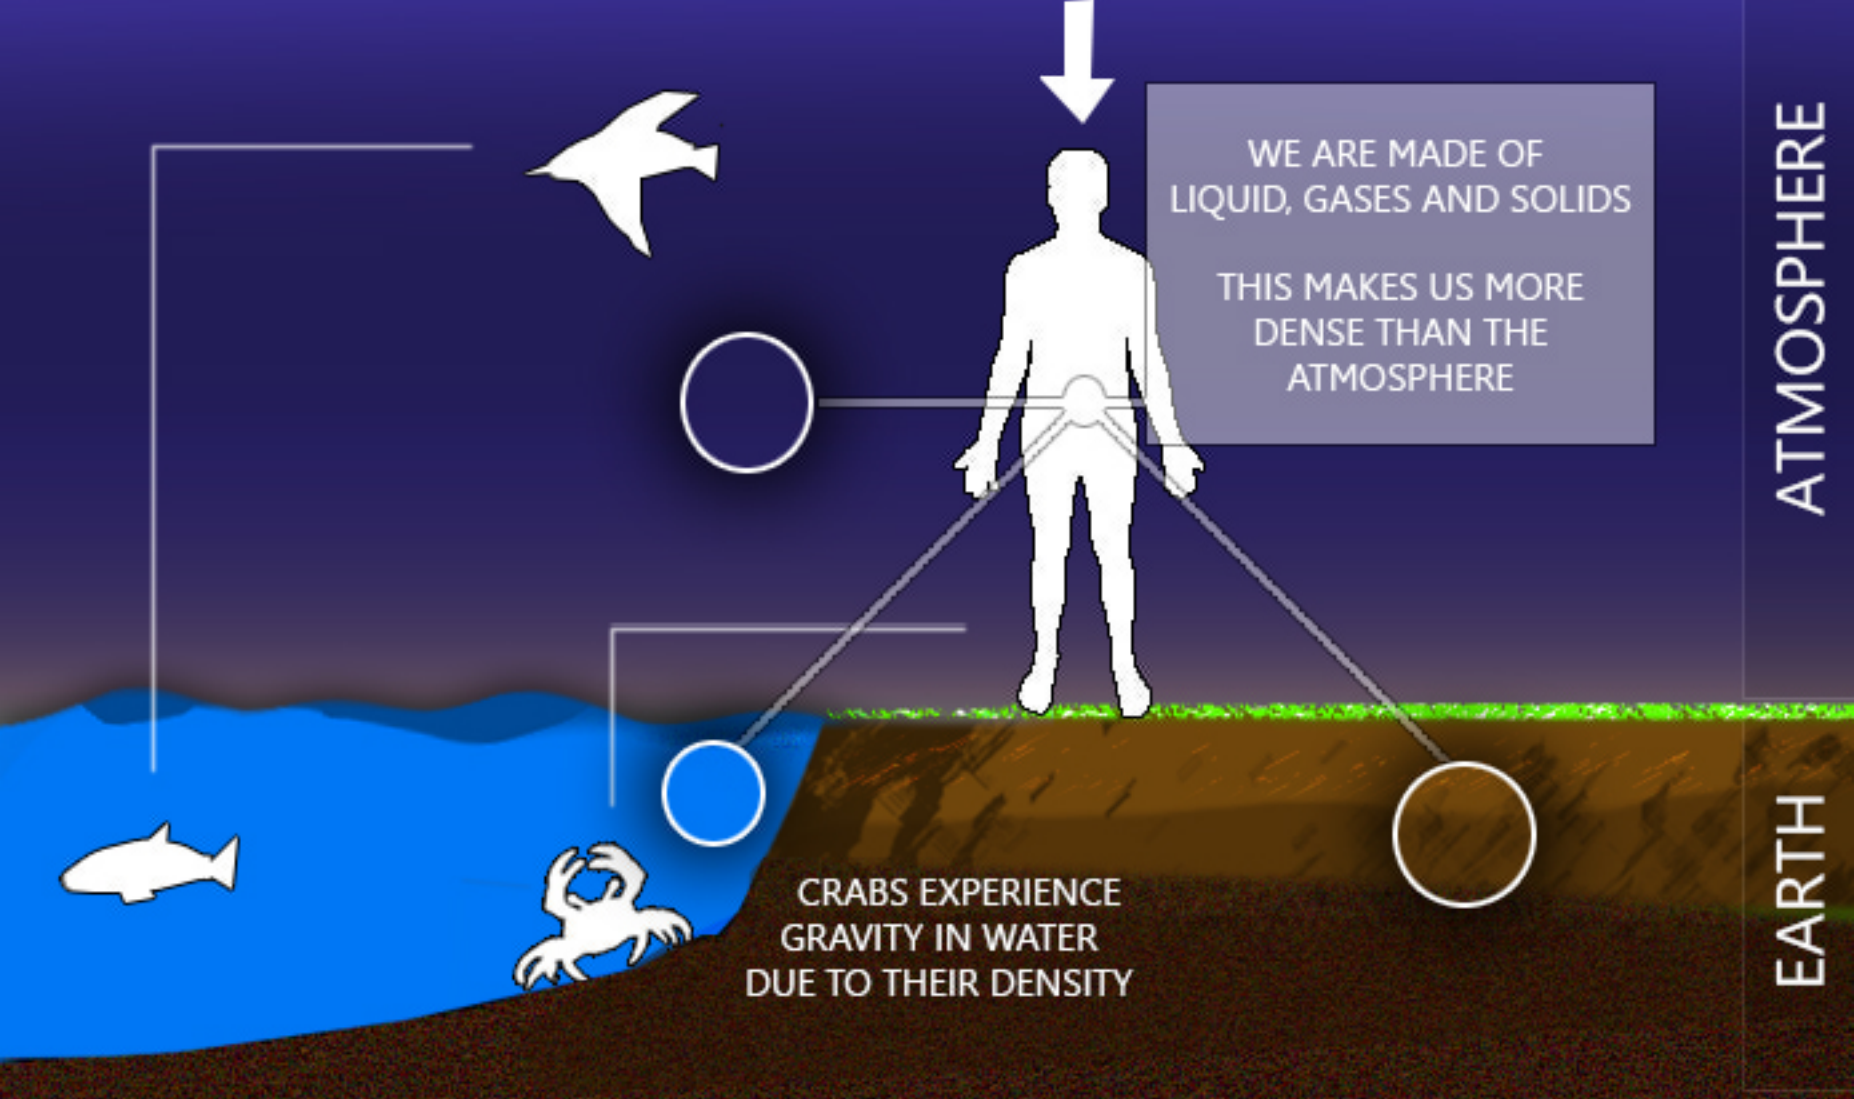

Gravity is the force applied by **C**

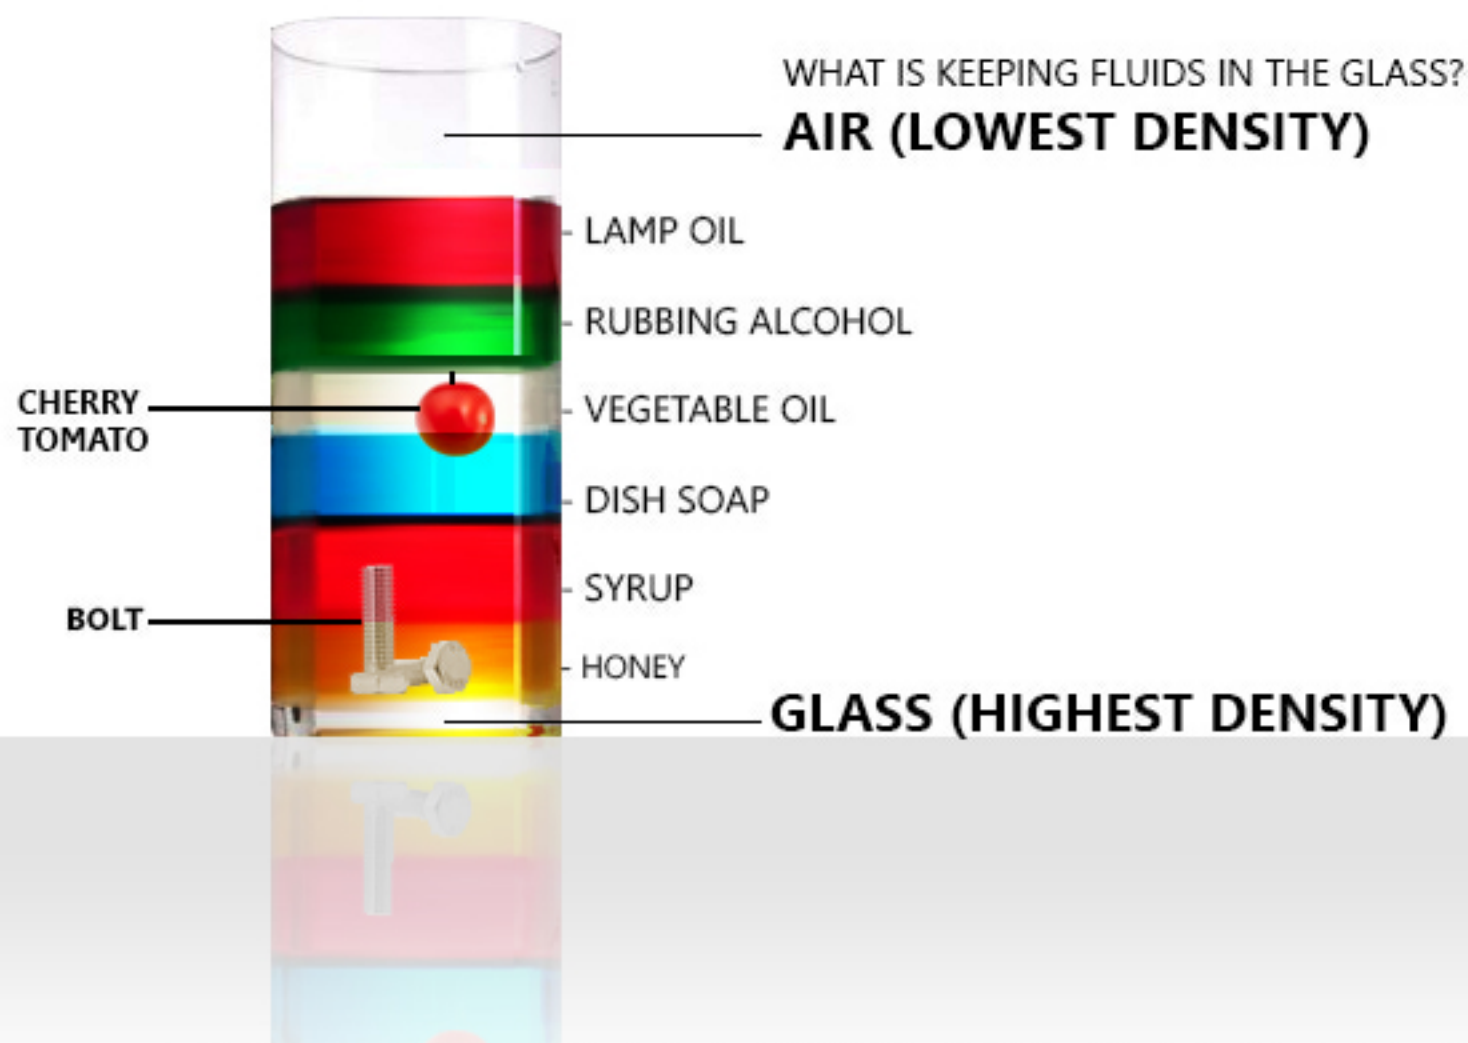

fluid: the ability to flow with ease

AIR
is a **FLUID**

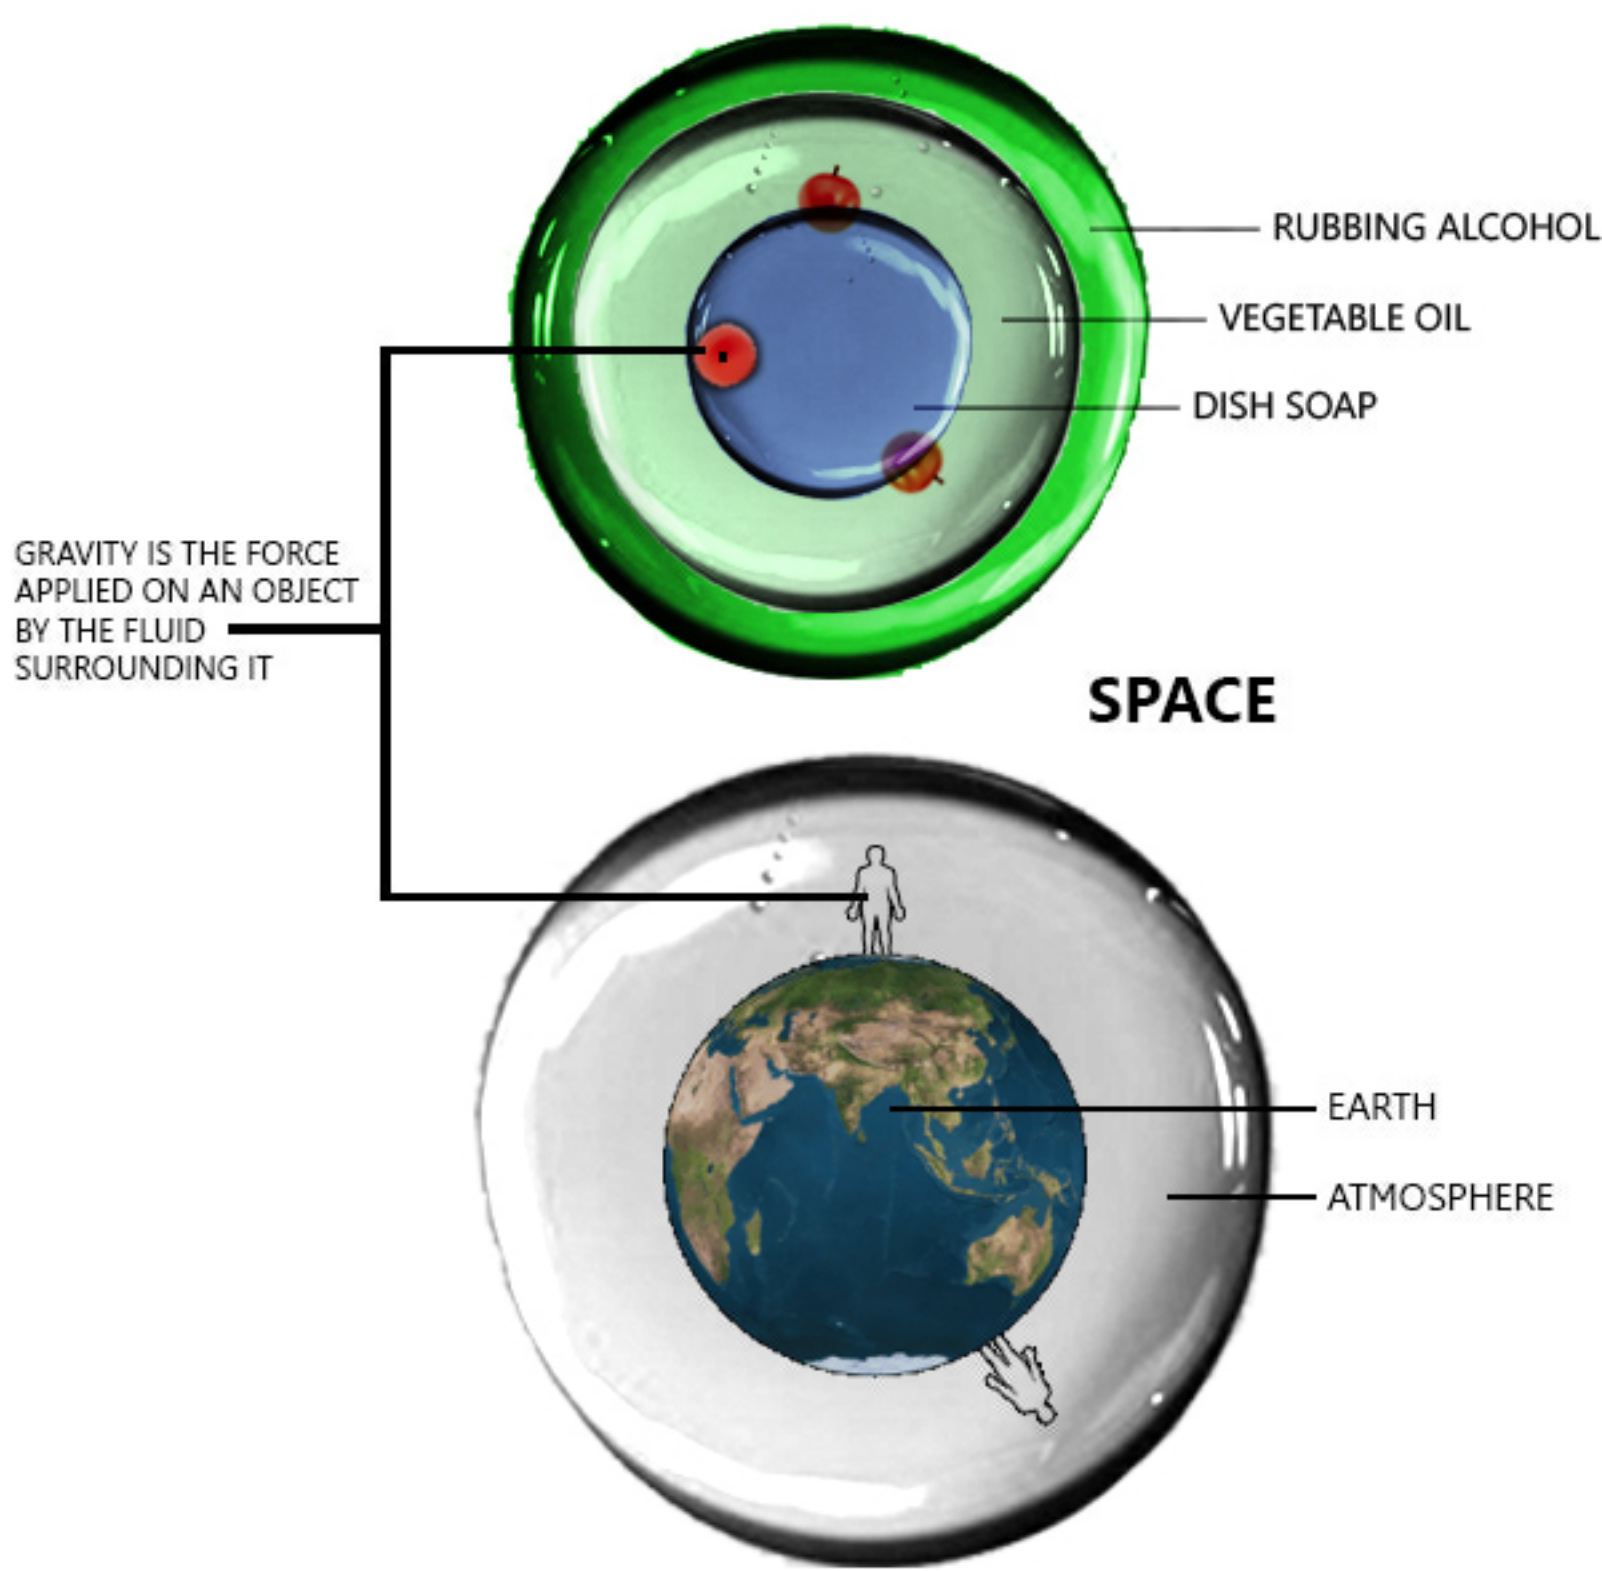

Our atmosphere should be thought of as our **ocean of air**

LAYER **DENSITY** EXPERIMENT

THE SAME EXPERIMENT IN
ZERO GRAVITY
