# Suivez quelqu'un ...

**Cliquez ici pour "suivre" quelqu'un.  
Ceci signifie que vous recevrez des  
mises à jour quand ils ajoutent des  
nouvelles observations**

# Utilisation de votre tableau de bord

Le tableau de bord assure le suivi de près de vos commentaires et identifications, vous montre les nouvelles observations des gens que vous suivez, et vous aide de suivre la communauté incessamment!

Mises à jour

The screenshot shows the Naturalist.org dashboard for user 'stevenkew'. The main content area is titled 'Welcome, stevenkew!' and features a 'Recent updates' section with 'Updates On Your Content'. A red box highlights this section, with an arrow pointing to the text 'Mises à jour'. To the right, there are three more red boxes with arrows pointing to them from external text:

- Calendrier d'observations:** A box containing a calendar titled 'Add observations' and 'YOUR AUGUST OBSERVATIONS'. The calendar shows dates from Sun to Sat for the month of August.
- Abonnements:** A box titled 'Your subscriptions' with a plus icon, containing the text 'Madagascar (Plantae) kit', 'Add a place subscription | Cancel subscription', and 'Manage all your subscriptions'.
- Extras:** A box titled 'Extras' with a plus icon, containing the text 'Blog widget' and 'Show off your recent observations on your own blog or website! Get started'.

Calendrier d'observations

Abonnements

Incorporez vos observations dans un blog ou site internet.

# Abonnez pour les mises à jour

The screenshot displays the iNat subscription interface. On the left, a form titled "Subscribe to a new place/taxon" includes a "Place" dropdown menu and a "Taxon" dropdown menu (marked as optional). A "Save" button is present, with a red asterisk and the word "Required" below it. On the right, a similar form titled "Subscribe to a new place/taxon" features a "Taxon" dropdown menu and a "Save" button, also with a red asterisk and "Required" below it. In the center, the "Your subscriptions" section shows a list of subscriptions under the heading "Places", with "Madagascar (Plantes)" listed. Below this, there are links for "Add place subscription" and "taxon subscription", both of which are circled in red. A red arrow points from the "Add place subscription" link to the left form, and another red arrow points from the "taxon subscription" link to the right form. Below the subscriptions section is an "Extras" section with a "Blog widget" and a link to "Show off your recent observations on your own blog or website! Get started »".

**Vous pouvez aussi vous "abonner" à des endroits et taxons sur iNat. Lorsque vous vous abonnez à un endroit par exemple «Madagascar», vous y recevez des mises à jour sur les nouvelles observations effectuées**

# Restez à jour

This tab shows observations from the community

Cet onglet montre vos mises à jour

The screenshot shows the iNaturalist.org website interface. At the top, there is a navigation bar with the logo and menu items: Observations, Species, Projects, Places, and Guides. Below this, a user is greeted with "Welcome, stevenkew!". A secondary navigation bar includes Home, Observations, Calendar, Favorites, Lists, Journal, ID's, Projects, and Profile. A third bar contains three tabs: "Recent updates" (selected), "Observations by everyone", and "Comments by everyone". Below the tabs, there are two sections: "All Updates" and "Updates On Your Content". The "Updates On Your Content" section displays two notifications. The first notification shows a user named "jakob" adding an identification to an observation by the user, with a timestamp of "9:53 am". It includes a small image of a beetle and text: "Your ID: Western Conifer Seed Bug (Leptoglossus occidentalis) Remove". Below this, it says "Posted by you about a year ago". The second notification shows "jakob's ID: Western Conifer Seed Bug (Leptoglossus occidentalis) Agree?". It includes a small image of a beetle and text: "Posted by jakob about 3 hours ago".

Publication des observations sur  
**iNaturalist**

# A partir de votre tableau de bord

Une observation peut inclure ces éléments :

Plusieurs rubriques sont facultatifs, il est plus mieux si vous pouvez fournir plus des informations!

# Ajoutez des données essentielles dans votre observation

Commencez à taper un nom de l'espèce, ou "recherchez" à partir de la liste externe et sélectionnez l'espèce correspondante

Entrez la date

Saisissez le nom de l'endroit. Lorsque vous saisissez un nom, appuyez sur la touche ENTRÉE ou cliquez sur "Search" pour vérifier sur Google que les coordonnées géographiques correspondent à cet endroit

Decrivez ce que vous avez vu

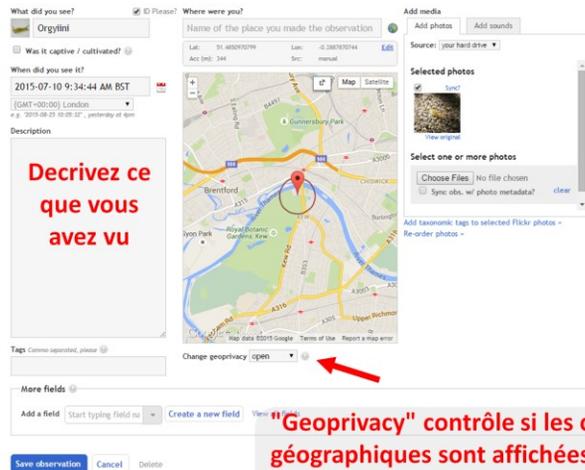

Téléchargez une photo ( ou plusieurs photos ) en cliquant sur " Choose File" et en cherchant un fichier photo sur votre disque dur

Enregistrez

The screenshot shows the iNaturalist observation form with several red arrows pointing to specific fields:

- An arrow points to the species name field containing "Oryzini".
- An arrow points to the date field containing "2015-07-10 9:34:44 AM BST".
- An arrow points to the "Where were you?" section, which includes a map of Gomersbury Park and a text input field for the location name.
- An arrow points to the "Add media" section, specifically to the "Choose Files" button in the "Selected photos" area.
- An arrow points to the "Save observation" button at the bottom of the form.

# Ajoutez des données facultatives à votre observation

Ajoutez des tags  
(ou étiquettes)

Ajoutez des  
données  
supplémentaires  
à travers la  
rubrique 'fields'

"Geoprivacy" contrôle si les coordonnées  
géographiques sont affichées publiquement. Choisissez  
"obscured" ou "private" pour les espèces et les  
endroits sensibles

# Après avoir posté votre observation

The screenshot shows an iNaturalist observation page for 'Periwinkles (Genus Vinca)' observed by 'onjalalaina' on May 26, 2015. The page includes a photo of a purple flower, a map of the location in London, and a 'Data Quality Assessment' table. Red arrows point to the 'Community ID' and 'Add an identification' buttons.

Data Quality Assessment	
Community-supported ID?	Yes
Community ID at species or lowest?	No
Date?	Yes
Georeference?	Yes
Photos or sounds?	Yes
Is the organism wild/naturalized?	Unknown
Does the date seem accurate?	Unknown
Does the data seem accurate?	Unknown

'simples' observations deviendront 'une 'catégorie en qualité de recherche' quand la communauté est d'accord..'

Les observations 'catégorie en qualité de recherche' sont utilisées par Interaction GBIF avec la communauté iNaturalist à travers des commentaires et des identifications

Interaction with the iNaturalist community through comments and identifications

Cliquez ici pour naviguer les observations

The screenshot shows the iNaturalist.org homepage. At the top, a navigation bar contains the following items: Observations (circled in red with a red arrow pointing to it), Species, Projects, Places, Guides, and People. Below the navigation bar, there are several colorful icons representing different species: a green lizard, a pink mushroom, a brown snail, a yellow bird, a blue insect, and a green frog. To the right of these icons is a 'Welcome!' message: 'Welcome! to iNaturalist.org, where you can record what you see'. Below the welcome message is a search bar with a magnifying glass icon and the text 'Search' (circled in red with a red arrow pointing to it), followed by a dropdown arrow and the word 'views'. To the right of the search bar are icons for 'Map' and 'Table'. Below the search bar is a map of the world with several colored pins indicating observation locations. To the right of the map is a list of observations. The first observation is for 'Snakes Suborder Serpentes' by user 'before-its-gone-journey', dated August 20, 2015, at 02:36 PM ICT, with 2 photos. The second observation is for 'Red-spotted newt (notophthalmus viridescens)?' by user 'hannanabid', dated August 26, 2015 07:13 AM EDT, with 1 photo. Below the map and list is the text 'Explore Your World!'.
