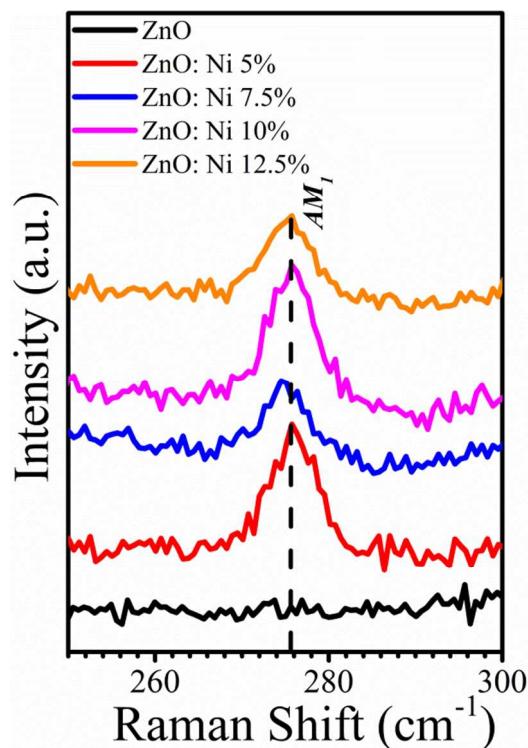

Figure S1. (Colour online) Shows the Raman peak of the additional mode.

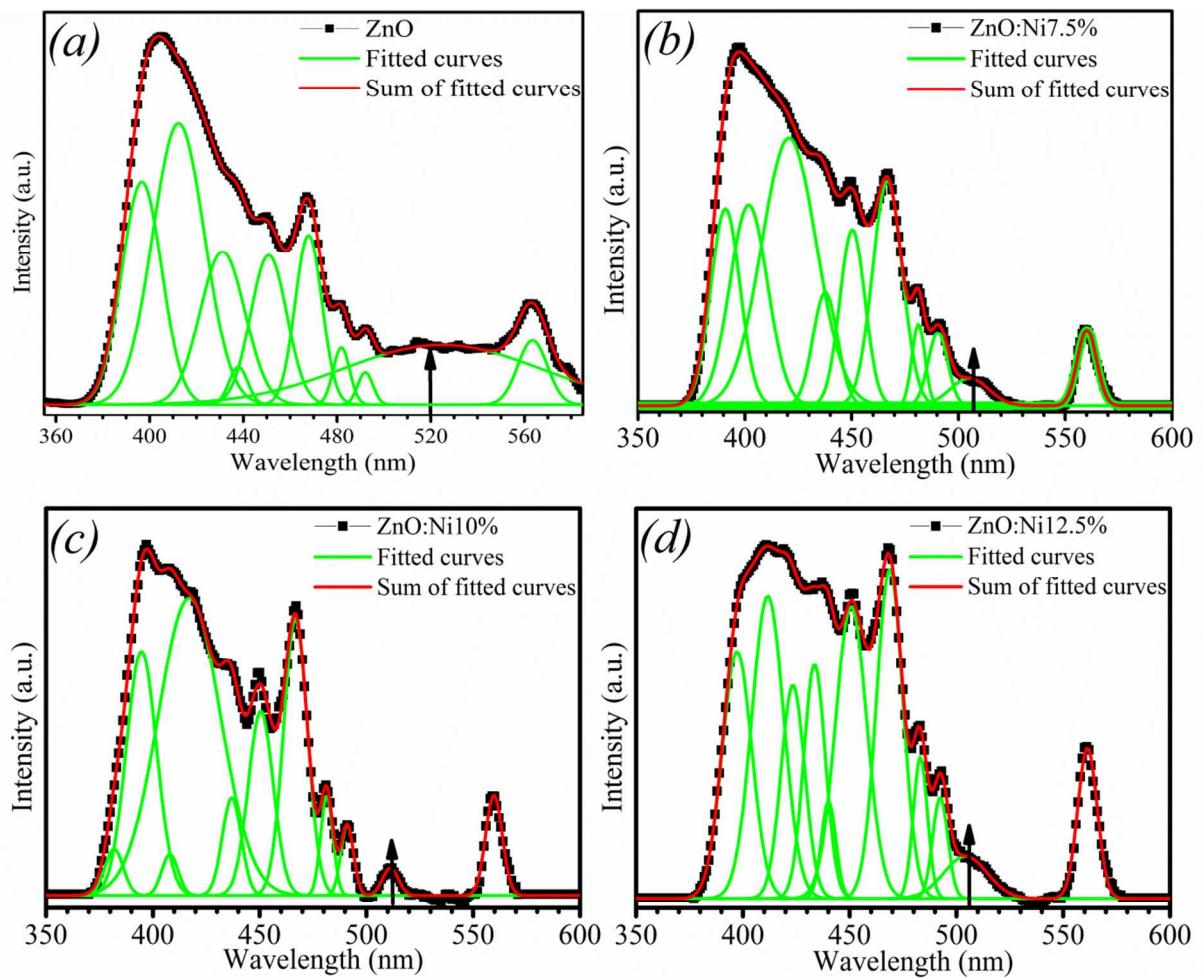

Figure S2. (Colour online) Shows Room temperature PL spectra of (a) ZnO (b) Ni 7.5% doped ZnO (c) Ni 10% doped ZnO (d) Ni 12.5% doped ZnO. The black dots shows experimental data, solid green and red lines are Gaussian fitting of individual peaks and sum of all peaks, respectively (↑ arrow indicate the presence of E_{10} peak in ZnO samples).
