

Supplementary figure 1\_Jorgensen:

Supplementary figure 1.

GFP<sup>2</sup>/RLuc ratios in BRET<sup>2</sup> competition experiment. The results display the GFP<sup>2</sup>/RLuc ratio from HEK293 cells transiently expressing GLP-1R-Rluc, GRK-GFP<sup>2</sup> and the indicated constructs. Results are the means  $\pm$ SEM of quadruplicate determination in six independent experiments.
