

Erratum

In the article by Ishikawa et al., entitled ‘Collateral Flow and White Matter Disease in Patients with Internal Carotid Artery Occlusion’ [Eur Neurol 2017;77:56–65, DOI: 10.1159/000453548], the scoring numbers in Table 8 are wrong. Instead of 1, 2, 3, they should read 0, 1, 2.

Table 8. Scoring for the MCA flow

MCA flow scale

- 0. Well visible same as the opposite site
 - 1. Poorly visible compared to the opposite site
 - 2. Not, or barely, visible
-

MCA, middle cerebral artery.
