Call For Research Papers

IJSTR welcomes the authors to submit their journals in aims to exchange and spread the latest researches, innovations and extended applications via online and printed monthly publications. All the submitted journals are reviewed by full double - blind international refereeing process.

IJSTR publication includes theoretical, practical and empirical paper in all areas of engineering and sciences. However, IJSTR enlists the below areas from Computer Science, Chemistry, Physics, Biology, Medical Science, Geology, Statistics, Accounting, Social Science, Mathematics, Management and Economics without putting any cap on the uncovered ones.

Call for Papers - April 2017 Edition (Volume 6, Issue 4)

Last Date of Online Submission: 20th Mar 2016

Online Journal Publication (Apr Edition) starts : 5th Apr 2017

***Paper submission for March 2016 Edition has been closed.

Online Submission

IJSTR Paper Submission Format

Author Guidelines

Following is a long list of areas covered which is in fact much wider in scope than what you see. So, find out the details for the latest call for paper and start the online submission process! (the areas are not limited to the following):

Active and Programmable Networks
Active safety systems
Ad Hoc & Sensor Network
Ad hoc networks for pervasive communications
Adaptive, autonomic and context-aware computing
Advance Computing technology and their application
Internet Technologies, Infrastructure, Services and Applications
Interworking architecture and interoperability
Knowledge based systems
Knowledge management
Location and provisioning and mobility management
Location Based Services

Rumus Scholar Metrics

oogle Scholar Metrics

ailable Metrics

h-index of a publication is the largest number h such that at least h articles in that publication were cited at least h times
h. For example, a publication with five articles cited by, respectively, 17, 9, 6, 3, and 2, has the h-index of 3.

h-core of a publication is a set of top cited h articles from the publication. These are the articles that the h-index is based
For example, the publication above has the h-core with three articles, those cited by 17, 9, and 6.

h-median of a publication is the median of the citation counts in its h-core. For example, the h-median of the publication
ve is 9. The h-median is a measure of the distribution of citations to the articles in the h-core.

ally, the **h5-index**, **h5-core**, and **h5-median** of a publication are, respectively, the h-index, h-core, and h-median of only
se of its articles that were published in the last five complete calendar years.

display the h5-index and the h5-median for each included publication. We also display an entire h5-core of its articles,
ng with their citation counts, so that you can see which articles contribute to the h5-index. And there's more! Click on the
tion count for any article in the h5-core to see who cited it.

ogle Scholar Metrics

lusion and Corrections

ou can't find the journal you're looking for, try searching by its abbreviated title or alternate title. There're sometimes severa
ys to refer to the same publication. (Fun fact: we've seen 959 ways to refer to PNAS.)

ou're wondering why your journal is not included, or why it has fewer citations than it surely deserves, that is often a matte
onfiguring your website for indexing in Google Scholar. Please refer to the inclusion manual. Also, keep in mind that
holar Metrics only include publications with at least a hundred articles in the last five years.

rbagi, Giatkan Publikasi

Karakteristik

TOP 100 Google Scholar Metric

a. Mengklasifikasi berdasar bahasa artikel (Contoh. Jurnal Atom dan telkomnika karena berbasa inggris tidak masuk di top 100 Indonesia) Jadi untuk mencari Metric jurnal tersebut memakai menu searc pada scholar metric.
b. Menghitung berdasar artikel yang disitasi dari 5 tahun terakhir. (contoh. Jurnal Mimbar Hukum Memiliki sitasi yang banyak namun hanya sedikit yang dari 5 tahun terakhir)

Karakteristik TOP in Research Area

a. Sementara hanya jurnal berbahasa inggris yang muncul.

Hal yang perlu diperhatikan

1. Pastikan artikel metadata benar ketika publish (terutama Judul, Abstrak, Referensi, Tahun Terbit, dan Nama Jurnal)
2. Jika terbitkan back issue (cetak ke online). Perhatikan metadata tahun terbit tiap artikel dan terbitan. Ganti dengan tahun aslinya. Karena by default akan berganti ke tahun sekarang, Kesalahan di poin ini bisa berakibat tidak bisa masuk ke Scholar Metric karena dihitung tahun pertama.

ROMEO colour	Archiving policy
green	can archive pre-print *and* post-print or publisher's version/PDF
blue	can archive post-print (ie final draft post-refereeing) or publisher's version/PDF
yellow	can archive pre-print (ie pre-refereeing)
white	archiving not formally supported

urnal Profile in Sherpa Romeo

Journal:	**Academic Journal of Economic Studies** (ISSN: 2393-4913, ESSN: 2457-5836)
RoMEO:	This is a RoMEO **green** journal
Listed in:	DOAJ as an open access journal
Author's Pre-print:	✓ author **can** archive pre-print (ie pre-refereeing)
Author's Post-print:	✓ author **can** archive post-print (ie final draft post-refereeing)
Publisher's Version/PDF:	✓ author **can** archive publisher's version/PDF
General Conditions:	• Publisher's version/PDF may be used • On an open access repository • Creative Commons Attribution License 3.0 • Publisher copyright and source must be acknowledged
Mandated OA:	(*Awaiting information*)
Notes:	• All titles are open access journals • Publisher last reviewed on 03/08/2015 • Applies to Academic Journal of Economic Studies
Copyright:	Policy
Updated:	03-Sep-2015 - **Suggest an update for this record**

DOAJ Basic Criteria
https://doaj.org/publishers#advice

- **Coverage:**
- Subject: all scientific and scholarly subjects are covered in DOAJ.
- Types of resource: scientific and scholarly periodicals that publish research or review papers in full text.
- Acceptable sources: academic, government, commercial, non-profit and private sources are all acceptable.
- Level: the primary target group should be researchers. If the journal is run by a student body, the journal must have an advisory board of which at least two members have a PhD or equivalent.
- Content: at least a third of the content should consist of original research and/or review papers. All content should be available in full text on the site without embargo.

DOAJ Basic Criteria (cont.)

Access:

- The full text of ALL content must be available for free and be Open Access without delay (i.e. no embargo period). *This is a basic requirement for entry into DOAJ.*
- A charge may exist for a print version of the journal.
- User registration is not acceptable and journals requiring users to register to read full text are not accepted into DOAJ.
- One URL per site. One dedicated page to the journal.
- One unique URL per article. One HTML entry or PDF per article.

DOAJ Basic Criteria (cont.)

- All the journal's aims and scope, the editorial board, the instructions for authors, the description of the quality control system, the Open Access statement, the plagiarism policy, and the licensing terms) must be hosted on this same site and not be held centrally on another web site.
- All the journal content that the publisher is including in the application must be in one place and not spread over various locations.
- A journal's homepage must contain clear navigation with links to a Current Issue, the Archive or Past Issues, Search, Browse, the About page, the Editorial Board and Contact Us.
- A journal must have an editor and an editorial board . The following information must be made available on the Editorial Board page: the name and affiliation of the editorial board members.

DOAJ Basic Criteria (cont.)

- Every journal must display clearly on its web site information regarding Peer Review Process and Publication Charges
- *Licensing your material with a CC license.*
- *Clear author guidelines include:*

1. A detailed style guide;
2. A description of the quality control processes;
3. Information about copyright (please note the importance of informing authors about whether the journal will be the copyright holder after publication of an article or if the copyright remains with the author(s). We strongly believe that authors should be informed about your copyright/licensing conditions before they submit their work);
4. the plagiarism policy;
5. description of how to submit an article;
6. a contact email address.

Scopus

- Titles will only be considered for evaluation if they meet the following minimum criteria:

►The title should publish peer reviewed content.
►The title should be published on a regular basis (i.e. have an ISSN that has been confirmed by the ISSN International Centre). To register an ISSN, please visit this page.
►The title should have English language abstracts and article titles.
►The title should have references in Roman script.
►The title should have a publication ethics and publication malpractice statement.

Step 5 - Upload documents

The assessment of the actual content plays an important role in the evaluation of suggested titles. Therefore, we ask you to upload the three (3) most recent issues. If that is not possible, please upload nine (9) sample articles and a table of contents from the most recent issue(s). The uploaded documents must be in PDF or Microsoft Word format. The following conditions apply:

- Sample articles do need to contain an abstract of the article. The availability of English-language abstracts is a minimum criterion to be indexed in Scopus. Titles that do not have English abstracts may not be acceptable for review.
- If you cannot upload complete issues, please select 9 sample articles from the most recent issues and include at least one table of contents of a complete issue. The maximum number of documents that you can upload is 10.
- Only submit research articles or review articles as sample articles. Other document types such as book reviews or editorials are not considered as sample articles.
- The presence of either the 3 most recent issues, or the 9 most recent articles plus a table of contents file, is a minimum requirement in order for a title to be reviewed for Scopus indexing.
- **Please do not send us any issues by postal mail.** We only accept electronically submitted issues or articles.
- The maximum size of each document that you upload is 10MB.

You will receive an automatic e-mail confirmation within 24 hours of submission. If you do not receive an e-mail confirmation, please check your spam filter.

In case you have any questions, you can contact us at titlesuggestion@scopus.com .

☐ I am having technical difficulties uploading documents and will contact the Scopus team at titlesuggestion@scopus.com

Upload documents

Please specify document type: ○ Full issues (You need to upload minimal 3 recent issues.)
○ Single articles (You need to upload minimal 10 recent articles.)

IN

ous Re- Evaluation Criteria

ic	Benchmark not met when	Explanation
citation rate	≥200% compared to the average in its subject fields	The journal has a self-citation two times higher, or more, wh compared to peer journals in i subject field.
l citation rate	≤50% compared to the average in its subject fields	The journal received half the number of citations, or less, w compared to peer journals in i subject field.
Score	≤50% compared to the average in its subject fields	The journal has a CiteScore ha or less than the average CiteSc when compared to peer journa in its subject field.

ous Re- Evaluation Criteria (cont.)

nber of articles	≤50% compared to the average in its subject fields	The journal produced half, or l the number of articles, when compared to peer journals in i subject field.
nber of full-text clicks on ous.com	≤50% compared to the average in its subject fields	The journal's abstract are used half as much, or less, when compared to peer journals in i subject field.
ract usage on Scopus.com	≤50% compared to the average in its subject fields	The journal's full text are used half as much, or less, when compared to peer journals in i subject field.

Criteria for ESCI

Focused on consideration of Publishing Standards and Editorial Content. These include the following:

- Peer review.
- Ethical publishing practices.
- Electronic format.
- English language bibliographic
- Recommendation or request for coverage by Web of Science users.

WoS Selection Criteria (SSCI, AHCI, SCIE)

- Publishing Standards
- Editorial Content
- International Focus
- Citation Analysis

http://wokinfo.com/essays/journal-selection-process/

Publishing Standards

- Ethical Publishing Practices
- Publishing Format
- Timeliness
- International Editorial Conventions
- Full Text English

Ethical Publishing Practices

- Evidence of unethical policies such as predatory publishing practices or editorial instructions leading to excessive, inauthentic journal self-citation or any other fraudulent practices are not acceptable in any journal under evaluation and result in immediate rejection.

Timeliness

- To measure timeliness we need to see **three consecutive current issues, one after another**, as soon as they are published online or in print.

International Editorial Conventions

- informative journal titles, fully descriptive article titles and author abstracts, complete bibliographic information for all cited references, and full address information for every author.

Editorial Content

- Our editors determine if the content of a journal under evaluation will enrich the database or if the topic is already adequately addressed in existing coverage.

International Focus

- Editors look for international diversity among the journal's contributing **authors**, **editors**, and editorial advisory board members at a level that is appropriate for the journal's target audience.

Citation Analysis (Citedness)

- citation history of contributing authors and editorial board members
- Citation history of journal in Web of Science
